The airport commission approved the helicopter traffic pattern for Nampa recently. We have an helicopter operation at the airport now so you need to be aware of the operations. Maybe someone will explain it at the meeting.

The airport commission also infomed our President of come complains about the T-Craft Aero Club. Seems some of us are taking too much time between the time we pull our airplance out of the hangar and the time we taxi out thus blocking the taxiways. Please open the doors and preflight inside the hangar, move your airplace closer to the hangar building so another airplane can pass and expedit your departure.

The President also was told we need to clean up after ourselves after our meeting in the terminal bulding.

Free hour of flying went to Daryl Linde.

We will have a new member to introduce you to and vote on his membership.

See you at the meeting,
Daryl Linde, Secretary, T-Craft Aero Club, Inc.
